

TMSS Medical College and Rafatullah Community Hospital in Bogra have set an example by providing treatment to patients affected by Corona. None of the doctors, nurses, technicians and service providers of the hospital was affected by the corona while providing this medical service. After receiving treatment here, 93 percent of the patients have recovered and returned home. At a press conference organized by TMSS Health Sector in Thengamara, Bogura on July 9, 2020, the journalists were told that no patient would return from this hospital without treatment.

The hospital is divided into green, yellow and red zones and medical services are provided as per the instructions. As such, doctors and health workers are divided into separate zones to provide services. Accommodation for doctors, nurses and staff has been ensured at the end of the treatment. The hospital has 60 doctors, 150 nurses and more than 200 technicians serving the patients. Incentives have been increased 3 to 5 times to increase the morale and financial benefits of doctors. Dr. Md. Matiur Rahman, Deputy Executive Director of TMSS gave a welcome speech at the press conference. Prof. Dr. Moudud Hossain Alamgir Pavel, Executive Adviser, TMSS Health Sector read out the written statement. He said that till July 7, 2020, 336 patients with COVID were admitted to the hospital. Of them, 209 have recovered and returned home. At present 45 patients are admitted. The recovery rate is 93.7 percent. Ventilator support has given to 8 patients and 100% of them are now out of ventilator support.

Professor Dr. AKM Masudur Rahman, Head, Department of Medicine, TMSS Medical College and Rafatullah Community Hospital, Dr. Md. Azizur Rahman, Associate Professor (Medicine), Dr. Md. Mahbub Alam Siddiqui, Associate Professor (Medicine) answered the questions of the journalists. TMSS's Founding Executive Director Prof. Hosne Ara Begum joined the press conference through internet zoom and answered various questions of the journalists.
